HEALTH AND SAFETY POLICY STATEMENT

THE LEARNING SUPPORT CENTRE

The policy of our company **THE LEARNING SUPPORT CENTRE** is to provide and maintain a safe and healthy workplace by ensuring that work equipment is safe and that a safe system of work is provided for all of our employees. We will also provide suitable and sufficient information, instructions training and supervision as is necessary to ensure the health and safety of our employees and this shall include suitable and sufficient welfare, sanitary and working facilities as required.

All employees at **THE LEARNING SUPPORT CENTRE** have a duty to ensure that they work in a safe manner and that their acts or omissions do not cause harm to themselves or others in the vicinity. Employees will be encouraged to bring to the attention of the management any concerns regarding any health and safety issues.

THE LEARNING SUPPORT CENTRE recognises its duty of care towards others that are not in our employment. These people include; visitors and contractors who have reason to come into contact with our business activities and premises. These persons will be given suitable and sufficient information and instructions to ensure their health and safety. The actions of visitors and contractors will be controlled in such a way so as not to cause harm to our employees or themselves.

To ensure that the Policy is implemented and maintained so that **THE LEARNING SUPPORT CENTRE** keeps within the requirements of the **Health and Safety at Work etc Act 1974** the person named below will ensure that sufficient resources, both financial and physical are available so that the Policy and its arrangements can be implemented effectively.

We believe that this Health and Safety Policy complies with the requirements of the **Health and Safety at Work etc Act 1974** and will be subject to a regular review annually or when there are any significant changes.

Overall responsibility for health and safety at THE LEARNING SUPPORT CENTRE rests with:

Name: Laura Cook ... Position: Managing Director

Dated: ...13th April 2015.....

LEGAL DUTIES AND RESPONSIBILITIES OF EMPLOYERS

It is our duty and responsibility as employers under the **Health and Safety at Work etc Act 1974 section 2.1 and 2.2 a-e** and this policy to:

- Ensure so far as is reasonably practicable the health, safety and welfare at work of all our employees and others who may come into our company.
- Provide and maintain plant and safe systems of work that are, so far as reasonably practicable, safe and without risk to a persons health or safety.
- Make arrangements for ensuring, so far as is reasonably practicable, the safety and absence of risks in connection with the use, handling, storage and transportation of articles and substances.
- Provide information, instruction, training and supervision as is necessary to ensure so far as is reasonably practicable the health and safety at work of our employees.
- Maintain so far as is reasonably practicable any place of work in our control in a safe manner and maintain safe access and egress from it.
- Provide and maintain so far as is reasonably practicable a safe working environment with adequate facilities and arrangements for the welfare of our employees and others who enter our workplace.

We also recognise that a breach of health and safety legislation by our company constitutes a criminal offence. An Enforcing Authority may take criminal proceeding against the Company or its management. This can result in penalties, i.e. fines and / or imprisonment.

LEGAL DUTIES OF EMPLOYEES

In addition to the previously described general responsibilities, the **Health and Safety at Work etc Act 1974** places legal duties on all employees.

These are:

Section 7 'Health and Safety at Work etc Act 1974'

- To take reasonable care for the health and safety of themselves and other persons who may be affected by their acts or omissions at work.

- To co-operate with the management to enable the employer to carry out legal duties or any requirements as may be imposed.

Section 8 'Health and Safety at Work etc Act 1974'

- No person shall intentionally or recklessly interfere with or misuse any item provided in the interest of health, safety and welfare.

Employees should bear in mind that a breach of health and safety legislation by an individual constitutes a criminal offence and action may be taken by an Enforcing Authority against an individual. Such action can result in penalties, i.e. fines and / or imprisonment.

HEALTH AND SAFETY RESPONSIBILITY

The overall responsibility for health and safety within **THE LEARNING SUPPORT CENTRE** rests with:

Managing Director

The above named person will ensure that sufficient resources, both financial and physical are available so that the Policy and its arrangements can be implemented effectively.

To ensure that the Policy is implemented and maintained so that **THE LEARNING SUPPORT CENTRE** keeps within the requirements of the **Health and Safety at Work etc Act 1974** the above named person may delegate duties to employees who will provide support to meet the responsibilities.

These individuals may also delegate duties to other employees so as to enable the requirements of the Policy to be carried out with due diligence.

Delegation of the individual duties and responsibilities to employees does not in any way detract or remove the ultimate responsibility and duty of care placed on the above person by the **Health and Safety at Work etc Act 1974**.

INDIVIDUAL RESPONSIBILITIES

The duties of those employees with responsibility for health and safety are set out within our Policy. Details of their individual responsibilities are set out within the Arrangements for Health and Safety section.

The person responsible for ensuring this Policy is put into practice is:

Donna Welburn - Operations Director

Other duties will include:

- Identifying hazards present within any business activities.
- Ensuring risk assessments are undertaken and any actions are followed through to completion
- Ensuring that hazardous substances are assessed and any actions are followed through to completion.
- Liaising with the Enforcing Authorities as and when required.
- Identifying any training needs.
- The development and implementation of safe systems of work.
- The maintenance of the workplace and buildings.
- Fire and emergency management.
- Ensuring waste is managed.
- Ensuring accidents are reported and investigated.
- Ensuring that any ill-health situations that are caused by work activities are reported and investigated.

COMPETENT ASSISTANCE

The competent assistance and advice is provided by:

Citation

The **Management of Health and Safety at Work Regulations 1999, regulation 7**, requires that every employer must appoint one or more competent persons to assist them with the implementation and provision of health and safety measures.

The organisation of Health and Safety Consultants indicated above has been contracted to ensure that **THE LEARNING SUPPORT CENTRE** is provided with the necessary information, advice and assistance to comply with current Health and Safety Legislation.

Employment Law Advisory Services Limited will carry out audits of our Health and Safety Management documentation in order to measure our health and safety performance. These will be completed within the contractual arrangements at no more than twelve monthly intervals.

ARRANGEMENTS FOR HEALTH AND SAFETY AT WORK

THE HEALTH AND SAFETY INFORMATION FOR EMPLOYEES (AMENDMENT) REGULATIONS 2009

The regulations require information relating to health, safety and welfare to be provided for our employees by means of posters or leaflets in the 'approved form' and published for the purposes of the regulations by the Health and Safety Executive (HSE).

THE LEARNING SUPPORT CENTRE has a legal duty under the Health and Safety Information for Employees Regulations (HSIER) to display the approved poster in a prominent position in each or to provide each worker with a copy of the approved leaflet that outlines British health and safety law.

The 2009 poster replaces the version which was published in April 1999. As well as a download, the 2009 leaflet is available in a more convenient format as a pocket card and replaces the leaflet published in April 1999.

NOTICES

All notices whether on **THE LEARNING SUPPORT CENTRE** premises or elsewhere issued in accordance with the **Health and Safety at Work etc Act 1974** and its associated legislation must be complied with.

All employees, visitors, and contractors alike must take the necessary action to ensure that they are familiar, as far as is reasonably practicable, with any warning signs and the meanings and interpretations of signs, both advisory and warning, and comply with them.

Any suggestions on how we may improve health and safety within **THE LEARNING SUPPORT CENTRE** should be communicated to your manager/supervisor for assessment and feasibility.

All employees and others who may be affected by the contents of this Policy are advised and a master copy of the 'Health and Safety Policy' statement for **THE LEARNING SUPPORT CENTRE** is retained in the main office. The policy contains detailed information relating to the business activities and a copy is available for you to read.

THE LEARNING SUPPORT CENTRE consider themselves responsible employers, we will ensure that all employees read the policy and any areas that are not understood are explained to them in detail.

THE HEALTH AND SAFETY (CONSULTATION WITH EMPLOYEES) REGULATIONS 1996

Where there are employees who are not represented by safety representatives under **The Safety Representatives and Safety Committees Regulations 1977 amended 1997** the employer must consult those employees in good time on matters concerning their health and safety at work. This will be carried out by meetings, toolbox talks, use of the notice board and an open door policy.

- The introduction of any measures in the workplace, which may substantially affect the health and safety of the employees.
- The employer's arrangement for appointing or nominating an employees representative and their responsibilities and any resources that may be required to allow them to carry out the duty.
- Any information that the employer is required to provide under relevant statutory provisions
- The planning and organisation of any training requirements with regard to health and safety
- Any new technologies that are brought into the workplace and the training and consequences with regard to health and safety that may arise from the new technology.

To allow the business to carry out this duty consultation with employees will be the responsibility of:

Donna Welburn – Operations Director

The elected or nominated person/s to act as the employees' representative is:

Felix Omari – Support Administrator

Health and Safety meetings:

Termly

Regular health and safety information will be posted on a specific notice board.

The Staff Portal – Health and Safety

IDENTIFYING AND MANAGING HEALTH AND SAFETY RISKS

RISK ASSESSMENTS

The **Management of Health and Safety at Work Regulations 1999, Regulation 3**, requires that we must carry out a suitable and sufficient assessment of the health and safety risks to our employees whilst they are at work. We will also consider those that are not in our employment who may come into contact with our business activities or premises. Before embarking on this task we need to have an understanding of the following:

- A **Hazard** is something with potential to cause harm.
- The **Risk** is a measure of the likelihood that harm will be caused.

THE LEARNING SUPPORT CENTRE will ensure that we carry out suitable and sufficient risk assessments of all the tasks and equipment connected with our business activities that are likely to present a significant risk of injury or ill health to our employees or others within our activities.

The person responsible for ensuring that the risk assessments are undertaken is:

Donna Welburn - Operations Director

Risk assessments will be made available to all our employees who will read them. After reading and understanding the content of the risk assessment, the employee must sign our confirmation sheet to confirm they have read and understood the assessment and its findings.

The responsibility for the implementation of risk assessments and any controls that are required rests with the nominated person identified above and shall be supported by any other employees as is required.

The managers or supervisors will also monitor the effectiveness of any actions resulting from the findings of the risk assessments. Any deficiencies that are identified will be reported to the person responsible for carrying out the risk assessments.

All risk assessments will be reviewed annually as a minimum or if there is any significant change that affects the validity of the risk assessment, whichever comes sooner.

CONTROL OF SUBSTANCES HAZARDOUS TO HEALTH

The **Control of Substances Hazardous to Health Regulations 2002 (as Amended)** require us to carry out an assessment and record the risks involved with using, storing and handling hazardous substances.

Hazardous substances will not be used handled or stored until a suitable and sufficient risk assessment has been carried out. The findings and content of the risk assessment will be communicated to all employees likely to come into contact with the substance.

Material safety data sheets (MSDS) will be obtained for all hazardous substances purchased and this information will be retained. We understand these data sheets are freely available from suppliers and manufacturers who have a legal obligation to provide them.

The person responsible for ensuring that the CoSHH assessments are carried out is:

Donna Welburn – Operations Director

After reading and understanding the content of the CoSHH assessments the employee will sign the confirmation sheet to confirm they have read and understood the assessment and its findings.

Responsibility for implementation of CoSHH assessments and any controls required rests with the nominated person identified above and supported by other employees as is required.

The manager / supervisor will monitor the effectiveness of the CoSHH assessment and any deficiencies will be reported to the person responsible for carrying out CoSHH assessments.

All CoSHH assessments will be reviewed annually or if there are any significant changes that affect the validity of the risk assessment, whichever comes sooner.

MANUAL HANDLING

The **Manual Handling Operations Regulations 1992 (as Amended)** require that all manual handling tasks must be avoided where reasonably practicable, where this is not reasonably practicable then an assessment of the risks to employees must be carried out. The manual handling assessments will be made available to all employees.

After reading and understanding the manual handling assessment, the employee will sign the confirmation sheet to confirm they have read and understood the content of the assessment.

The person responsible for ensuring that the manual handling assessments are carried out is:

Donna Welburn – Operations Director

Responsibility for implementation of manual handling assessments and any controls required rests with the nominated person above, supported by any other employees as required.

The manager/supervisor will monitor the effectiveness of the manual handling assessments. Any deficiencies will be reported to the person responsible for carrying out the manual handling assessments.

However, management cannot carry out an assessment for all minor tasks therefore it is the responsibility of employees to mentally assess the risk of harm to themselves and others before carrying out manual handling.

Before carrying out any manual-handling task employees must consider

The Task - What you are going to do

The Individual – The persons own capabilities

The Load - The weight, size and shape of the load

The Environment – The environment to which the task is being undertaken

If in doubt get help

All manual handling assessments will be reviewed annually or if there is any significant changes that affect the validity of the risk assessment, whichever comes sooner.

PERSONAL PROTECTIVE EQUIPMENT

Personal protective equipment (PPE) must be provided for employees where a risk assessment indicates there is a requirement. The equipment provided will be suitable for the task affording the necessary protection.

An assessment of personal protective equipment will be carried out and where a need is identified, the equipment will be provided at no cost to the user.

Where PPE is supplied then employees must use the equipment provided; this is a legal requirement under the **Health and Safety at Work etc Act 1974 section 7**.

The person responsible for the assessment and provision of PPE is:

Hazel Wilson – Support Coordinator

Any questions or complaints (e.g. discomfort) about the PPE provided should be directed to:

Donna Welburn – Operations Director

The requirement for PPE will be reviewed regularly. PPE will always be used as a last resort when controlling risks.

WORK EQUIPMENT

The **Provision and Use of Work Equipment Regulations 1998** requires that all equipment and machinery used for work must be suitable for the task and fit for purpose. When choosing work equipment a number of factors must be considered:

- The task that the equipment or machinery is to be used for.
- The environment where it is going to be used.
- Who is going to use it?
- All equipment purchased or hired by **THE LEARNING SUPPORT CENTRE** must comply with the minimum safety standards as are required by **The Supply of Machinery (Safety) Regulations 2008**. We will also ensure our equipment is in compliance with British and ISO standards and it is CE marked when purchased within the European Union.

The person responsible for the supply, procurement, and repair of work equipment and machinery is:

Donna Welburn – Operations Director

Items of work equipment that require statutory inspection by competent persons will be inspected at the required intervals as stated below.

All portable electrical equipment will be inspected at regular intervals dependant on its type and usage.

The competent person responsible for inspection of electrical equipment is:

RB services Ltd

Records of these inspections are kept in:

L:\OPERATIONAL\Health & Safety\Maintenance

All defects of any work equipment must be reported to:

Donna Welburn – Operations Director

Records of repair and maintenance are retained and inspections of other work equipment that may deteriorate with use (e.g. ladders and stepladders) require such inspections.

Records of repair and maintenance are kept in:

L:\OPERATIONAL\Health & Safety\Maintenance

WORK EQUIPMENT Cont

Machinery Guarding

The **Provision and Use of Work Equipment (PUWER) 1998, Dangerous Parts of Machinery or Equipment (Regulation 11)**, requires that all dangerous parts of machinery or equipment must be guarded or covered. Management will ensure that where practicable and technically possible, appropriate guards or covers will be fitted to dangerous parts of machinery or equipment.

Employees are also reminded that they have a duty under the **Health and Safety at Work etc Act 1974** and **The Management of Health and safety at Work Regulations 1999** to work in a safe manner and to use all equipment provided for their safety. Failure to do this may lead to disciplinary action.

Stop Buttons and Guards

The **Provision and Use of Work Equipment (PUWER) 1998 Regulation 16**, requires that emergency stop buttons be fitted to all machinery and equipment where appropriate. The need will be determined by the specific risk assessment carried out on each machine or equipment.

In order to ensure that all guards, covers and emergency stops are maintained and in efficient working order, they will be tested and inspected at regular intervals (e.g. daily checks).

The Manager/Supervisor for the department will ensure that all machinery or equipment guards or covers and stop buttons are tested regularly and the test recorded.

Records of maintenance and repair of any work machinery or equipment will be kept available for inspection.

Any electrical work equipment that is used outside will be connected to the electrical circuit via a Residual Current Device that will break the circuit in the event of an accident.

Any maintenance carried out on equipment that may be hazardous to the maintainer or people in his vicinity will be carried out under strict isolation procedures. This may necessitate the need to raise a permit to work. The permit to work system will be controlled by a Senior Manager.

DISPLAY SCREEN EQUIPMENT (DSE)

The **Health and Safety (Display Screen Equipment) Regulations 1992** require that an assessment of all display screen equipment (DSE) and the workstation be carried out to identify any risks present.

Prior to carrying out the assessment a checklist will be completed so as to identify the presence of any significant risk.

We recognise that DSE users require training and will provide it as necessary.

The person responsible for the assessment of display screen equipment is:

Donna Welburn – Operations Director

The assessments will be reviewed annually or when any significant change occurs.

Eyesight Tests and Corrective Glasses

THE LEARNING SUPPORT CENTRE accepts their responsibility under these regulations. Should an employee have difficulty with their eyesight whilst using the display screen for their work, then we will pay for an eyesight test. This will determine if the employee requires corrective glasses to reduce the health risks involved in the use of computer screens.

If corrective eyewear is required then we will provide basic eyewear, which must be used whilst the operative is using the computer.

THE LEARNING SUPPORT CENTRE will not pay for any other type of eyewear, such as bi focal or varifocal if an employee requires these then they must pay the cost difference.

THE WORKPLACE

The **Workplace Health Safety and Welfare Regulations 1992** are designed to provide all employees with a safe place to work and adequate welfare facilities.

We will also ensure that the premises as well as any fixtures, fittings and plant within it do not present a health and safety risk to any visitors and contractors that may come into contact with our business activities and premises.

Workplace inspections that identify defects and omissions early will be carried out at regular intervals, when defects and omissions are identified then a time scale and person responsible for repair or implementation will be set.

Inspections of the buildings and outside environment will be carried out every:

Monthly

All defects and omissions must be reported promptly so that they can be dealt with. The person responsible for dealing with workplace defects is:

The Landlord

The Institution of Electrical Engineers Regulations and the HSE recommend that a competent electrician should inspect fixed electrical installations at least every five years and a certificate of inspection obtained and retained.

The person responsible for ensuring electrical installations are inspected is:

The Landlord

Any electrical defects must be reported to:

The Landlord

In order to maintain a safe and health workplace, good housekeeping is extremely important. All employees have a part to play in the delivery of this requirement. They will ensure that their workplace and work equipment is kept in a clean and tidy condition, items and equipment must not be left on the floor to present a trip, slip or fall hazard and any cables are tucked away or routed away from traffic routes.

THE HEALTH ACT 2006

Chapter 28 of the Health Act makes provision for the prohibition of smoking in certain premises, places and vehicles and therefore "Smoking" is not allowed in any of our workplaces or entrances where smoke can enter the building. This also applies where cigarette smoke can enter the building through a window. It is our policy to ensure this

legislation is fully applied and also includes our vehicle, therefore “Smoking” is not allowed. In the event of a person smoking in the workplace areas, disciplinary action will be taken.

Good Housekeeping is Everybody’s Responsibility

THE WORKPLACE Cont

Under the **Gas Safety (Installation and Use) Regulations 1998** we have a duty to ensure that any installations within the premises are installed and maintained by a competent person. The annual checks will include the effectiveness of any flue, the supply of air for combustion, the operational pressure and the safe function of appliances.

The person responsible for ensuring a Gas Safe registered engineer inspects the gas installations is:

The Landlord

CONTROL OF CONTRACTORS

All workplaces use contractors from time to time for example electricians, window cleaners, painters, and decorators, plumbers and other trades persons. These will be controlled so that they work in a safe manner and do not cause any employee and other visitors to be at risk.

We also understand that the controls must also protect the contractor from any risk them from any hazards that may arise as a result of our business activities.

Prior to any contractor carrying out any work at our business premises or elsewhere on our behalf, the contractor must produce or complete the following:

- A copy of their current Employer and Public liability insurance.
- Copies of any accreditations applicable to the job they may have.
- A method statement for the task they are to carry out.
- Copies of any risk assessments relevant to the job.
- Any other information that may affect the health and safety of anybody involved.

The person responsible for the control of contractors is:

Laura Cook – Managing Director

LONE WORKING

THE LEARNING SUPPORT CENTRE has a duty to ensure the safety of lone workers as far as reasonably practicable. As far as the Health and Safety at Work, etc Act 1974 is concerned, the responsibility of the employer to ensure the safety of lone workers does not differ much from that of the responsibility to ensure the safety of employees working in a group or under close supervision.

Employees must co-operate with management to enable them to comply with their health and safety duties in respect of lone working. Section 7 of HASWA requires employees to take reasonable care for the health and safety of themselves and of other persons who may be affected by their acts or omissions at work.

THE LEARNING SUPPORT CENTRE will manage the risks associated with lone working by the following means;

- Risk assessments will be carried out for all lone working activities. This will enable us to establish the degree of risk and to put in place the control measures required to reduce the risk to an acceptable level. Risk assessment will take into consideration the person, the equipment/ materials being used and the environment where lone working is carried out. The assessment will also consider the emergency arrangements including rescue and first aid.
- We will ensure that the required communication equipment and procedures are implemented to enable employees to be communicated with at suitable intervals (the degree of risk determines what constitutes a suitable interval). The means of communication will be determined via the risk assessment process, but the telephone is an obvious means, with mobile telephones or two-way radios for workers who may be working at remote out-stations.
- Only trained, competent and authorised persons will be permitted to work alone. Training, information and instruction will be provided following the satisfactory completion of a suitable and sufficient risk assessment.

Whether or not a person will be permitted to work alone in or out of normal hours, will depend on the degree of risk posed by the work, the working environment and on the individual.

The person responsible for ensuring that the risk assessment for lone working is carried out:

Donna Welburn – Operations Director

The person responsible for developing procedures for the lone working activity is:

Donna Welburn – Operations Director

FIRST AID

The **Health and Safety (First Aid) Regulations 1981** requires us to provide adequate first aid equipment and a sufficient number trained people to administer first aid when required.

We will carry out a first aid risk assessment; this will enable us to establish the number of trained first aid person/s we require as well as the amount of first aid equipment needed.

Factors considered will be:

- The number of people involved.
- The level of risk that our business activity presents (low, medium or high risk).
- The proximity of our business to professional medical help (e.g. rural or town centre that may affect the speed at which the paramedics will arrive).
- Any other issues that may affect the assessment.

The qualified first aid people or appointed persons are:

**Hazel Wilson -Leicester Office
When working off site University/College First Aider**

The first aid boxes are located at:

Kitchen – upstairs and downstairs

All accidents are to be reported and entered in the accident book, which is located i

L:\OPERATIONAL\Health & Safety\Accidents

All accidents will be investigated and remedial actions identified this will prevent reoccurrence of the same or similar incidents. The level of investigation will depend upon the seriousness of the accident.

The person responsible for investigation of accidents is:

Donna Welburn – Operations Director

REPORTING OF INJURIES DISEASES AND DANGEROUS OCCURENCES (RIDDOR) REGULATIONS 1995 (AMENDED 2013)

Under these regulations specific work related accidents, diseases, and dangerous occurrences must be reported to the Enforcing Authorities. The method of reporting is through the **Incident Contact Centre (ICC)**.

Although there is a comprehensive list of reportable situations within the regulations the main incidents that must be reported are:

- Fatalities –These must be report as soon as possible by the quickest method possible, usually by telephone.
- Major injuries such as broken bones and back injuries etc.
- Injuries that causes the employee to be away from his/her normal work activity for more than seven days incapacitation (not counting the day on which the accident happened) incapacitation means that the worker is absent or is unable to do work that they would reasonable be expected to do as part of their normal work.
- Any incident that leads to a member of the public being taken to hospital by any means.
- Diseases.
- Dangerous Occurrences.

You only have to report injuries that lead to a worker being incapacitated for **more than seven consecutive days** as the result of an occupational accident or injury (not counting the day of the accident but including weekends and rest days). The report must be made within 15 days of the accident.

The person responsible for reporting incidents is:

Donna Welburn – Operations Director

You must still keep a record of the accident if the worker has been incapacitated **for more than three consecutive days**. If you are an employer, who must keep an accident book under the Social Security (Claims and Payments) Regulations 1979, that record can be treated as a record for the purposes of RIDDOR.

The record must include information such as:

- The name and occupation of the injured person or those involved in the incident.
- The status of the injured person (employee or visitor/contractor).
- The location of the incident.
- A brief description of the incident or disease.
- The date, time and method of reporting.

Incidents and diseases can be reported by the following methods:

Online

Go to www.hse.gov.uk/riddor and complete the appropriate online report form. The form will then be submitted directly to the RIDDOR database. You will receive a copy for your records.

Telephone

All incidents can be reported online but a telephone service remains for reporting **fatal and major injuries only**. Call the Incident Contact Centre on 0845 300 9923 (opening hours Monday to Friday 8.30 am to 5 pm).

FIRE SAFETY

Under the **Regulatory Reform (Fire Safety) Order 2005** and the **Management of Health and Safety at Work Regulations 1999** employers are required to undertake a specific risk assessment of the risks posed by fire within their businesses undertaking.

A specific fire risk assessment will be undertaken and the findings implemented.

The fire risk assessment will be reviewed at least annually, or if there is any significant change in the circumstances.

The fire evacuation will be practiced at least twice annually but not in the same six months.

The alarm system will be tested weekly.

The person responsible for carrying out the evacuation practice and tests then recording the results is:

Donna Welburn – Operations Director

The fire marshals are:

Hazel Wilson and Nikki Jiggins – Leicester Office

The assembly point is situated at:

**Leicester Office - Phoenix Piazza Bicycle Park
Regus – refer to Fire Evacuation Procedures
Refer to Institutions H&S Policy on Staff Portal when working off site**

All fire extinguishers are inspected by a competent person annually and must be replaced when discharged. The competent person for fire extinguisher inspection is:

RB Services Ltd

The emergency lighting will be tested monthly and any defects found reported and repaired. The person responsible for this is:

The Landord

Flammable Liquids

All flammable liquids will be stored safely. Flammable liquids will be kept in a flameproof locker and employees will return them to the locker after use.

Flammable Liquids are not to be left near sources of heat or ignition.

FIRE SAFETY Cont

Emergency exits and evacuation routes will be kept clear at all times and checked at regular intervals. The person responsible is:

Donna Welburn – Operations Director

The evacuation plan will also include a procedure for the removal of visitors and contractors.

A roll call will be carried out to ensure all people are present. The role calls coordinators are:

Laura Cook and Donna Welburn

The Fire Procedure is as follows:

If you discover a fire:

- Raise the alarm by the recognised method.
- Only tackle the fire if trained to do so, with the equipment provided, ensuring your exit is clear at all times and without taking personal risks.
- Call the Fire Brigade Immediately by telephone.
- Give the operator the contact telephone number.

When speaking to the Fire Brigade provide the following information:

- We have a fire at **THE LEARNING SUPPORT CENTRE** and give the operator the full address.
- Do not replace the receiver until the Fire Brigade has repeated the address.
- Call the Fire Brigade immediately to every fire or on suspicion of a fire.

Upon hearing the recognised alarm:

- Evacuate the building by the nearest available emergency exit.
- Move towards the fire assembly point and report for role call.
- The fire role call coordinator will inform the fire service of any missing persons.
- Do not stop to collect personal belongings.
- Do not re-enter the building until the Senior Fire Officer informs you it is safe to do so.

* * *

STRESS

THE LEARNING SUPPORT CENTRE recognises that work related stress can cause ill health and will put controls in place to help prevent stress. However, **THE LEARNING SUPPORT CENTRE** cannot be held responsible for stress caused by outside sources such as financial or domestic problems.

Because stress does not affect all people in the same way and that one person may find a job stressful when another does not, it is difficult to assess the risk to all employees. Therefore, employees must ensure that they report any undue stress that they may feel from different work activities.

Stressful situations can be reported in confidence to:

Donna Welburn – Operations Director

Stress counselling will be provided if and when necessary by:

By The Employees General Practitioner

VIOLENCE & AGGRESSION

Violence and aggression in the workplace is unacceptable but is a recognised hazard, therefore to reduce the risk to any of our employees a specific risk assessment will be carried out and reviewed as and when required but at least annually.

The assessment will:

- Recognise the risk from violence.
- Give commitment to reducing the risks.
- State who is responsible for doing what.
- Provide an explanation of what is expected from individual employees.
- Provide support for people who may have been assaulted or suffered verbal abuse.

Training in the prevention and management of violence and aggression will be provided where it is considered necessary.

The policy, risk assessments and procedures will be reviewed annually or if there is any significant change.

PREGNANCY

It is important to **THE LEARNING SUPPORT CENTRE** that the health, safety and welfare of all our employees is safeguarded. We recognise our responsibilities under the **Management of Health and Safety Regulations 1999 Regulation 16** and realise that if any of our employees become pregnant they must inform their manager/supervisor immediately. This can be verbally but must be followed up by a written confirmation from their doctor.

The management will carryout an individual specific risk assessment of the work that the employee does for the company to determine any risks to her and her unborn baby that may arise from the work activities.

The person responsible for ensuring that the risk assessment is carried out is:

Donna Welburn – Operations Director

Where the risks are significant then assistance or alternative employment will be provided.

Pregnant employees must not:

- Carryout manual handling tasks (Lifting and Carrying).
- Use or come into contact with any hazardous substances.
- Work at height (stand on stepladders, step ups etc).

Pregnant employees must.

- Work to the controls put in place by the risk assessment.
- Inform their line manager/supervisor of any problems or changes that may occur during their pregnancy so that the risk assessment can be reviewed.

To maintain a safe working environment for any pregnant employees a suitable rest area will be provided for them to rest if required.

Seating will be provided for the employee to carry out their work.

YOUNG PERSONS

The Management of Health and Safety at Work Regulations 1999 Regulation 19 defines a young person as someone who is over the legal school leaving age of 16 years but has not reached the age of 18 years.

Further consideration should be given to young people who are placed within the working environment on 'Work Experience'. **THE LEARNING SUPPORT CENTRE** will do all that is reasonably practicable to ensure students or children on placements are not placed in a working environment where there are significant risks to their health and safety.

Due to their lack of experience, maturity and lack of awareness it is essential that they are supervised at all times until they gain the required experience, maturity and awareness of the risks.

The person responsible for ensuring that the risk assessment of the young person is carried out is:

Donna Welburn – Operations Director

Any young person will be provided with all the information; instruction, training and supervision they require. They will also be provided with a mentor (responsible employee), who has accepted the responsibility of overseeing the young person.

Young persons will not be allowed:

- To carry out work that is beyond their mental and physical capability.
- To be exposed to substances that are toxic or carcinogenic.
- To carry out tasks that can involve risks be assumed is beyond their recognition.
- To be exposed to extremes of heat, cold, noise and vibration.

The young person must

- Carry out all reasonable instructions given to them by their mentor.
- Refrain from horseplay or practical jokes.
- Report any thing that they feel unsure or unsafe about.

WORKING AT HEIGHT

The **Working at Height Regulations 2005** requires us to consider a number of key elements prior to carrying out any work that involves climbing from floor level.

We are required to suitably and sufficiently assess the risks involved in working at height. This will involve consideration of the following key factors:

- Is there a specific need to work at height or can the operation or task be carried out without working at height?
- Is the equipment we provide suitable for the task involved and does it allow ease of access to the working area?
- Is the equipment used to access the work area maintained?
- Are the employees we intend to use suitably trained to carry out the task and is their level of fitness acceptable?
- If employees are required to access surfaces at height, then we must take into account the surface of sufficient strength to support the persons involved.
- The height involved must also be taken into account, as well as should a fall occur what is the employee likely to fall on or into. A secondary means of supporting the employee should he/she fall must be provided for the higher access tasks.
- If the task requires employees to work outside, then the weather conditions must be taken into account. If the weather conditions are adverse and likely to threaten the safety of our employees, then the task will be postponed until such time when it is safe to proceed.

We will carry out a risk assessment, taking into account the factors indicated above. If the work is beyond what we consider acceptable then we will call on the services of a specialist contractor to make the work zone easily accessible to our employees.

The person responsible for carrying out the working at height assessments is:

Donna Welburn – Operations Director

TRANSPORT

The road transport safety of our employees is important to **THE LEARNING SUPPORT CENTRE**. To ensure that vehicles and users are safe at all times the company will carry out risk assessments to ensure that the correct controls and safeguards are put in place.

The person responsible for ensuring that the risk assessment is carried out; is:

Donna Welburn – Operations Director

- All drivers will hold full clean UK driving licenses.
- If required, drivers will undergo a thorough medical examination and eyesight test.
- All drivers must report any ill health which may impair their driving abilities, road accidents and any fines and driving endorsements received. They may then be removed from the authorised drivers list.
- All vehicles will have a valid Road Fund Tax disc.
- All vehicles will have valid fully comprehensive insurance for the extent of the vehicles use.
- if covered by fully comprehensive insurance with extra business or passenger cover dependant on the type of vehicle
- Privately owned vehicles used for company business must have all the relevant documentation.

The rules and assessments will be reviewed annually or if any significant change takes place.

Mobile phones

It is an offence under the **Road Traffic Act** to use a hand held mobile phone whilst driving this includes waiting at traffic lights and in traffic queues.

THE LEARNING SUPPORT CENTRE will not place pressure on any employee to use the phone whilst driving. Therefore the company cannot be held responsible for any employee who is prosecuted for this offence. Before answering the phone the driver must pull over and park in a safe place. The use of call divert to voice mail is encouraged or the use of the answering machine. The text message service is not to be used whilst driving. Failure to comply with this rule may lead to disciplinary action.

TRAINING

THE LEARNING SUPPORT CENTRE recognises the duty to provide its employees with whatever training is required so that they can carry out their job in a safe manner. This will ensure they are protected from hazards and that they do not cause anyone to be harmed by their activities.

To ensure this is carried out the person below has been appointed to identify any training needs:

Donna Welburn – Operations Director

The type of training that will be provided is:

- Induction training for all new employees.
- Job specific training for all new employees or employees who transfer to other roles.
- Health and safety training for all employees that have been given specific tasks in the policy and to allow all employees to carry out their jobs safely.
- Extra training and supervision will be provided for young people because of their immaturity and lack of experience.
- Training will either be provided in house where appropriate or by an accredited training provider.

All training will be recorded and retained with the employee's personal file as the employee will sign to confirm that they have received the training and understood it.

The person responsible for maintaining the training records is:

Donna Welburn – Operations Director

Health and Safety Training should include:

- Risk and CoSHH assessment training when applicable.
- Manual handling training as and when required.
- Use of Personal Protective Equipment (PPE) when issued.
- Use of Display Screen Equipment where necessary.
- Personal hygiene.
- Health and Safety awareness.
- Fire prevention and safe use of fire equipment.

- Any other training that may be relevant to their tasks or health and safety.

GENERAL GUIDELINES FOR EMPLOYEES

- You must not commit or allow to be committed any act which may result in potential danger in any way.
- You must attend as requested any training course, meeting etc, designed to further the interests of health and safety.
- You must observe all laid down procedures concerning work activities, equipment, materials and substances.
